

Lake Mainit, Agusan Del Norte and Surigao Del Sur

Address: Agusan Del Norte, Surigao Del Norte

Description: The fourth largest and the deepest lake in the Philippines, Lake Mainit supports an important fishery, which is a major source of livelihood of the communities surrounding it. Situated within the Caraga administrative region, the lake is in close proximity to several mining operations, which is thus also addressed in FPE's biodiversity conservation efforts in the area.

Status: On-going
